My Ambition

Looking forward to a challenging position where I can handle a unit and supervise them to achieve a better result for the overall organization. I would like to enhance my skills and utilize my creativity for the advancement of the organization.

I'm always looking for self improvement and I'm willing to experiment new possibilities of visual expression through any process of Visual Communication, from traditional techniques, to digital ones, searching for real and tough challenges that can squeeze out the best of me for the clients I work for, pushing my limits over and over again.

And last, but not least, to enjoy my life.

Reasons for wanting to leave my current employer:

I am interested in a new challenge and an opportunity to use my skills and experience in a different capacity than in the past. After several years in my current position, I am looking for a company where I can contribute and grow in a team-oriented environment.
